

IBR

The following is a list of diagnostic laboratories, other than the Department of Agriculture Laboratories, that have provided details of tests offered for IBR (antibody and virus detection) and the accreditation status of these tests. For further information please contact the laboratories directly. To amend an entry or to enquire about inclusion on the list, please contact us at admin@animalhealthireland.ie. Note that the Department of Agriculture Laboratories Virology Division (Backweston) must be used for official testing for BVD and IBR (e.g. for entry to AI).

ISO 17205 is an internationally recognised standard for accreditation for tests provided by laboratories, that includes assessment of the quality, administrative and technical systems in operation and provides reassurance to clients of the accuracy of the results generated.

INAB / (UKAS) accredited to ISO 17025

Not accredited to ISO 17025

B Blood

M Milk

T Tissue

Sm Semen

NS Nasal Swab

BAL Broncho-alveolar lavage

Name of laboratory	Address	Website	Contact	Accreditation Body	Antibody ELISA			Virus detection tests			Laboratory provides herd accreditation to CHeCS standard
