VIEW YOUR ANTE-MORTEM DATA - THE DASHBOARD

- Click on the ① **Ante-Mortem** tab and a sub-menu will appear. Click on ② **Dashboard**.

Ante-Mortem >> Dashboard

Overview Dashboard
Loaded in as: FARMA John Doe

Overview

Show 10 entries Search:

Farm	Biosecurity		Tail biting risk assessment		Salmonella	
	Date of last assessment	Overall score	Date of last assessment	% of pens where risk have been identified	Sample collection month/year	Seroprevalence
FARMA	31-JAN-22	63	05-OCT-21			

Showing 1 to 1 of 1 entries Previous 1 Next

- If you have more than one farm under your ownership a list of farms will appear in a table format. To see the data from individual farms, click on **Dashboard** in the column **Action** (not shown).
- Several headings are displayed with the first being ③ **Batch Reports**. This screen shows your farm Ante-Mortem results for all batches slaughtered. Each row represents one single batch. The column headings are as follows;
- Slaughter date
 - Factory
 - DOA (Number of pigs dead on arrival at the factory)
 - DIL (Number of pigs died in lairage)
 - EUT (Number of pigs euthanised due to welfare reasons)
 - Docked (Percentage of docked tails)
 - Batch Findings (Ante-Mortem findings)
 - Number of Conditions (Number of pigs showing Ante-Mortem lesion(s))
 - NFHC (Number of pigs not fit for human consumption)

VIEW YOUR ANTE-MORTEM DATA - LATEST ASSESSMENTS

- The second tab is ① **Latest Assessment**. This screen shows the Ante-Mortem results of the most recent batch of pigs sent to slaughter (Batch score %), the aggregated results for the batches assessed in the last 3 rolling months (3 Month Avg. (%)) and the annual average (calendar average - Annual Avg. (%)). These results are benchmarked against the national average (calendar average - National Avg. YTD). Cells highlighted in red represent an annual average that is higher than the national annual average.

VIEW YOUR ANTE-MORTEM DATA - BENCHMARKING

- The third tab is ① **Benchmarking**. This screen shows a graph with the percentage of pigs with lesions (any lesion) detected at Ante-Mortem in the previous 3 months for all the farms that slaughtered pigs in those 3 months. Your result will be highlighted in red with the other farm results highlighted in blue.
- On the same screen scroll down further, you will be able to view similar graphs but for each type of lesions assessed at Ante-Mortem. Click in the lesion you want to check (e.g. ② **Abscessation**). Your farm results will appear as red, while the blue results represent farms you are benchmarked against.

VIEW YOUR ANTE-MORTEM DATA - PERFORMANCE

- The last tab is ① **Performance over time**. This screen shows a list of lesions assessed at Ante-Mortem. Click in the lesion box you want to check (e.g. ② **Abscessation**). Your farm results from the last 12 months for this lesion will appear in blue which is then compared with the national average (black line), the average of the best 25% farms (orange line) and the average of the worst 25% farms (brown line). You can select or deselect a line by clicking on the specific line in the legend of the graph.
