

VETERINARY PRACTITIONER GUIDE FOR HERDOWNERS GRANTING ACCESS TO VIEW ANIMAL HEALTH DATA ON ICBF

- Access for veterinary practitioners to herdowner health information can be obtained in two ways, either by the herdowner signing an authorisation form or by the herdowner granting permission online through ICBF.
- The authorisation form can be accessed through the veterinary practitioner ICBF login and must be posted to ICBF, PO Box 81, Freepost, FBDN2011, Link Rd, Ballincollig Co. Cork or emailed to whiteforms@icbf.com.

The screenshot shows the ICBF website interface for generating an authorisation form. The page title is 'Authorisation Forms'. It contains instructions for generating a blank form and a form for a specific individual. Three steps are highlighted with red circles and numbers:

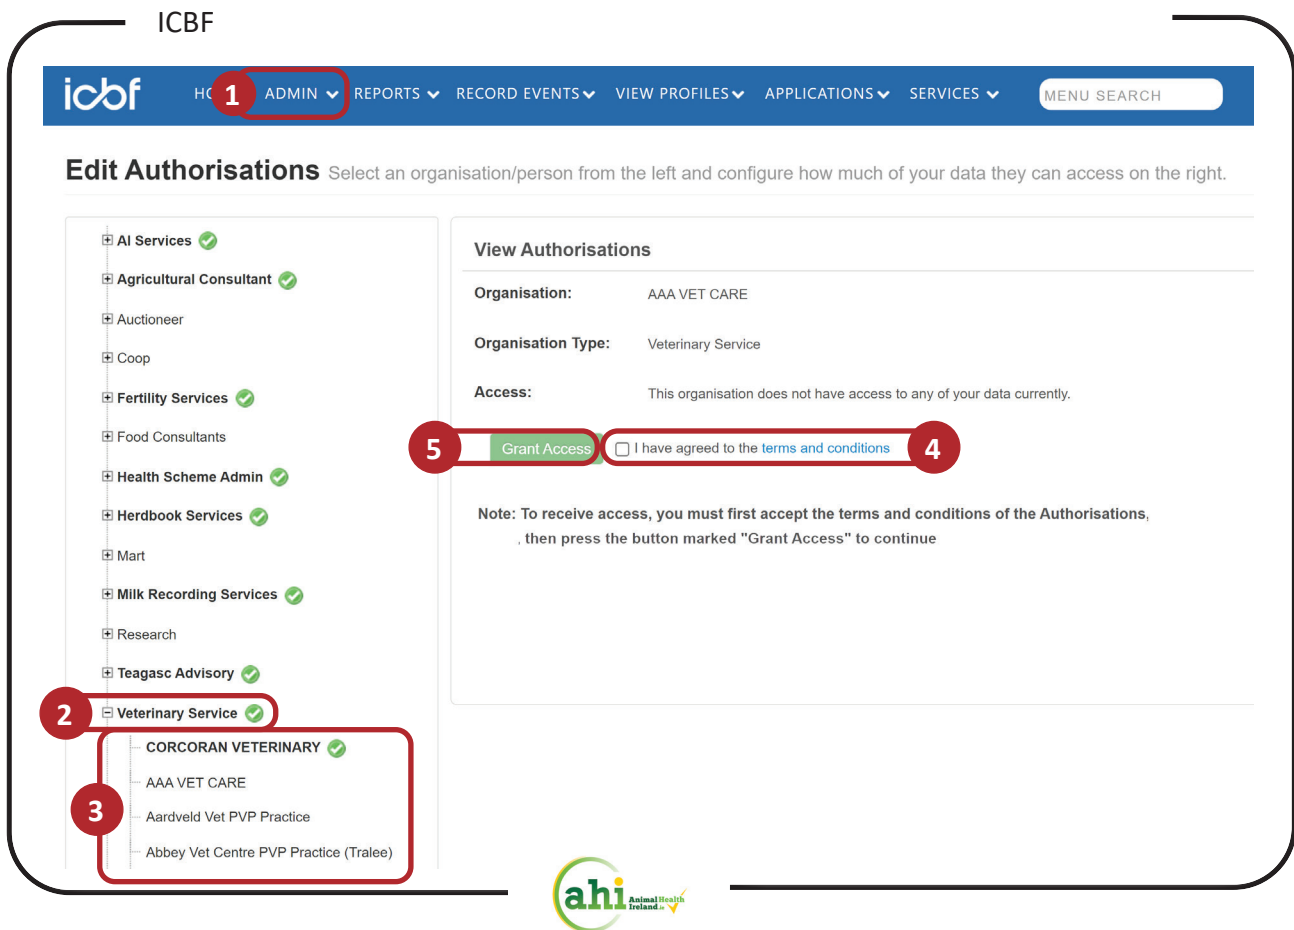

- 1**: The 'AUTHORISATION FORM' tab in the top navigation bar is highlighted.
- 2**: The 'Generate Blank Authorisation Form' button is highlighted.
- 3**: The 'Check Herd' button is highlighted, which is located next to a 'Herd Number' input field.

- The form can be generated on ICBF as follows:
 - » Open the **1 AUTHORISATION FORM** tab once logged in as a veterinary practitioner. The form can either be generated as a blank form without herdowner details.
 - » Click **2 GENERATE BLANK AUTHORISATION FORM**, to create a form without herdowner details. Practice details are pre-populated.
 - » Or enter the herd number and click **3 CHECK HERD** for both herdowner and practice details to be pre-populated.
